Junior interior designer with an AEC in Interior Design (NTA.1P) from LaSalle College, a design internship at Azoko by HTDS in Barcelona and a paid residential renovation project. I work across the full project sequence, from adjacency matrices and blocking plans to construction and lighting plans and finish specifications, in AutoCAD and SketchUp. Fully bilingual, I produce drawing sets in French and English.

Core Competencies

- **Space planning**: adjacency matrices, bubble diagrams, public/private/service zoning, blocking plans and furniture plans.
- **Technical drawing**: title-blocked drawing sets at standard scales (construction plans, lighting plans and legends, elevations, millwork details).
- **Materials and finishes**: material selection and specification, quantity takeoffs with waste, working to budget; lighting specification (fixture type, lamp, colour temperature).
- **Presentation and visualization**: 3D renderings, perspectives, mood boards and sample boards to guide client decisions.
- **Software**: AutoCAD, SketchUp, 3ds Max, Coohom, Fusion 360, Adobe Photoshop, Illustrator, InDesign, Procreate, Revit (beginner).

Design Experience

9505-5083 Québec Inc. — **Galland Condo**
Designer (paid client project) — *Jul 2026 - Sep 2026*

- Renovated the kitchen and washrooms of a rental condo with a neutral, modern palette and durable finishes chosen for broad tenant appeal.
- Opened up a cramped kitchen: removed a pantry, enlarged the island around an existing structural column for extra storage and seating, and brought in natural light from the large windows.
- Produced before/after 3D perspectives of the kitchen, living room and bathroom (SketchUp).

Azoko by HTDS — **Barcelona, Spain**
Design Intern — *Mar 2025 - Sep 2025*

- Kirinzi, a Japanese restaurant: produced first- and second-floor plans and 3D perspectives (AutoCAD, SketchUp, Illustrator) for an open dining space with natural wood, vertical slatted partitions and soft lighting creating private seating zones.
- Assisted with space planning and measurements, and built scale models.
- Followed the project from existing conditions through construction (before and during-construction documentation).
- Assisted with graphic and product design projects.

Academic Projects

LaSalle College
Hoch Condo, multi-residential building — *Oct 2024 - Dec 2024*

- Common areas (lobby, gym, multi-purpose room, rooftop) and a residential unit: blocking, furniture and rendered floor plans, perspectives and mood board (AutoCAD, Photoshop, Procreate).
- Lighting specification (2000K to 5000K) and sample board with manufacturers and SKUs (TileBar, Formica, Graham & Brown, CB2).

- **LaSalle College**
  Dual Concept Bathroom *Dec 2024*
  - One layout rendered in two material concepts so the client can compare palettes, textures and lighting (3ds Max).

- **LaSalle College**
  Altrea Advertising Agency, offices *Jun 2024 - Aug 2024*
  - Adjacency matrix and zoning for an office floor, then a 7-sheet bilingual set: blocking, furniture, construction and lighting plans, lighting legend, elevation and perspective (AutoCAD, Coohom, Procreate).

- **LaSalle College**
  Restaurant Flooring Specification *Feb 2024*
  - Quantity takeoffs with 10% waste, with choices justified by traffic, durability and maintenance: engineered hickory dining room at $13,148 against a $14,000 budget, porcelain tile vestibule at $1,687 against $2,000.

- **LaSalle College**
  Residential Bar *Dec 2023*
  - 7-sheet millwork set: plan, front and side elevations, and sink, faucet, bar fridge and wine cellar specifications.

- **LaSalle College and Vanier College**
  Walk-in Closet and Summer Cottage
  - Walk-in for a couple: custom storage sized to linear-foot requirements and ergonomic standards (AutoCAD, Procreate).
  - Summer cottage: floor plans, sections, elevations and 3D perspectives from architectural plans (Revit).

Education

- **LaSalle College** **Vancouver**
  AEC in Interior Design (NTA.1P), online *2023 - Dec 2024*
  Graduated December 2024. Interior layout planning, materials and finishes, colours and effect, history of styles, 3D modeling.

- **Vanier College** **Montréal**
  Revit course, beginner *2026*

- **John Abbott College**
  CEGEP studies *2019 - 2021*

Other Experience

- **Ye Olde Orchard** **Pointe-Claire**
  Waitress *Jan 2022 - Present*

- **Sports Experts Fairview** **Pointe-Claire**
  Salesperson *2020 - 2022*

- **Uniprix Pierre Gravel** **Pointe-Claire**
  Cashier *2017 - 2020*

Languages

- French and English: fully bilingual.
